

Introducing our new app!

Touch ID or PIN authentication

Easily and securely log in using fingerprint or a personal identification number.

View balances and account activity

Search for transactions, add a note or an image, and filter by tags. Understand your activity and find what you're looking for—fast.

Make deposits with a snap of your camera

Deposit checks into qualified accounts using the mobile remote deposit feature.

Bill pay and person-to-person payments

Pay bills or send money to friends and family quickly and securely.

Transfer funds

Effortlessly initiate one-time, future date or repeating transfers.

Personalize your app

Arrange the app's features in a way that makes the most sense to you—customize the app on a per-device basis and move things around however you like.

Branch and ATM locations

Find the nearest ATM or locate a branch using your current location.

Volt Digital Banking Login Guide

Here is a quick guide to walk you through what logging in to digital banking will look like if you log in from our website.

Say hello to convenience with the Volt Mobile App! 📱✨ Check balances, transfer funds, pay bills, and deposit checks—all from your smartphone. Your banking, your way, anytime, anywhere. 🏠

Once the new platform is live on October 1, you will start your login process by downloading the app

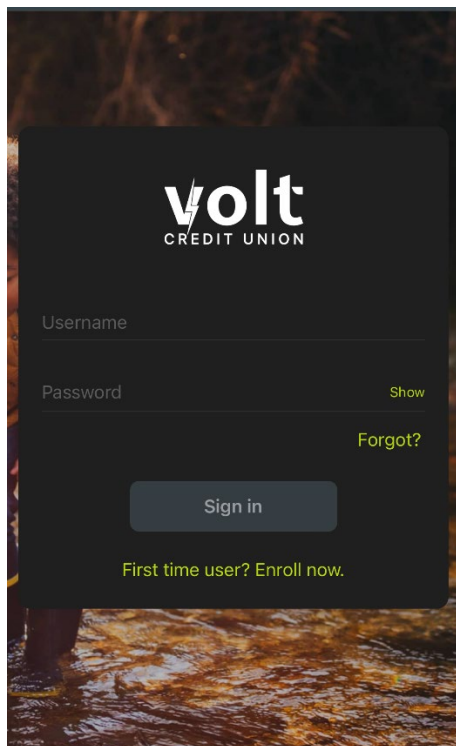

Android Link:

Iphone Link:

* Please make a note that you will want to delete the old app on your device once your new app is live to prevent confusion in the future.

1. Once you're in the new app, you will see this screen.

2. Select "**First Time user? Enroll now**" at the bottom.

3. For added security, you will be required to add 2-factor authentication to your account. Please note that it will default to texting the verification code to the mobile phone number we have on file at Volt. You will need to confirm your phone number. Promptly enter the authentication code in the area below and then select **Verify**. (If you are unable to receive text (SMS) messages, select "Try another way").

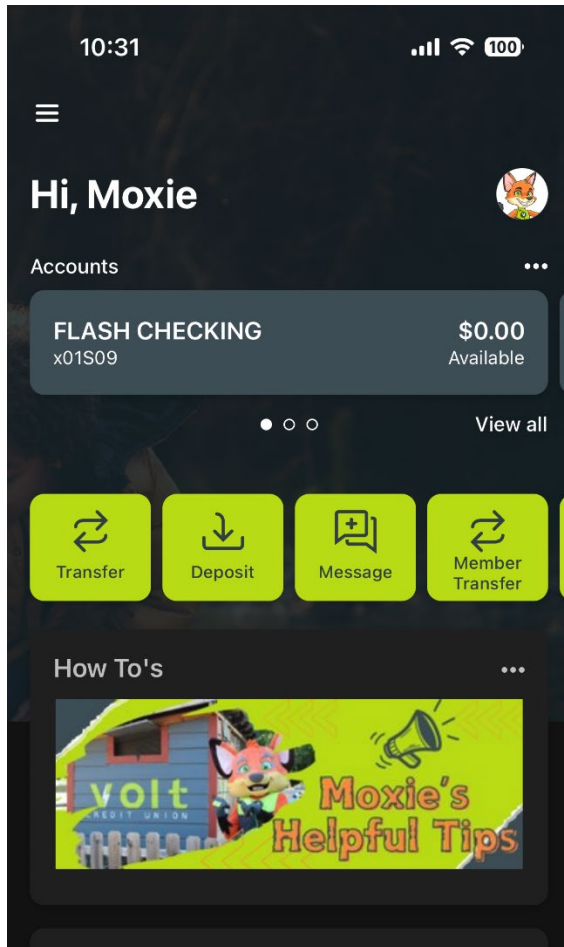

4. For an added layer of security, you will be prompted to create a new passcode for the device you are currently using. Create a passcode, and then confirm it by entering it again on the following screen. (You will be given the option to sign in faster with Face ID. Face ID is not required)

Once you've provided authentication, you're all set! Now you can start exploring the options within Volt's new digital banking app.

We hope you love it. Thank you for your patience during the transition, and if you have any questions, please visit www.voltcu.org, email info@voltcu.org, or call 417-862-0471.
